Hi,

I think that is an excellent idea. We should know each other. It is really nice that you offered your place Jordan, thank you.
Another possibility could be - maybe we can organize some potluck barbeque party for our tenants... We have a lovely patio...

Hello Everyone,

I want to give some updates on what has been happening with the homeless community on Carlos and Tamarind. About two weeks ago, around sunrise on the morning of 4th of July, I went out there to clean up the streets myself with a broom, dustpan, and some trash bags. I had been cleaning up for a few minutes when LAPD did a routine drive-by to announce that the homeless needed to take their tents down, per the city ordinance. I want thank Officer Diaz, I believe it was, and his partnering female officer for their continued support of the situation. The homeless people came out of their tents, and I was able to speak with them. I listened to them, and they listened to me. I think a little empathy went a long way. They don't like their situation anymore than we do. They know it's dangerous, and they don't have the security of a gate and a front door with a deadbolt. Homelessness is an epidemic in our city. We can spend a lot of time and effort trying to move them to a different spot, only to have another, and potentially more dangerous situation on our hands. I made a deal with them. I gave them my broom, dustpan, and some trash bags. I made them about 20 breakfast tacos (I'm originally from Austin, it's what I know). They agreed to keep the street clean, and keep out any mentally unstable and potentially dangerous people. I told them that I would continue to provide them with trash bags (which I have), food when I can, and cold water on a hot day (which I did when it got up over 100 degrees last week). I also said I would speak to everyone on this email chain about potentially doing the same.

I want to thank the LA Dept of Sanitation for coming by to pick up the trash that they accumulate. I know situations like this are all over the city, and there is more trash than we know what to do with. If anyone on this chain would like to help, and you don't feel comfortable going down there on your own. you are more than welcome to contact me, and I will come get what you have and take it down there. I think the situation has improved in the last two weeks, but this is going to take a constant effort. There is also another group of people I am in contact with over in Whitley Heights that organize once a month to make sandwiches for the homeless and hand them out around the neighborhood. I will be participating in their next outing on August 5th. I am happy to provide more information on that too if you would like.

We all work, and we are all busy. If you catch yourself saying, "This is disgusting, someone should do something," you can do something. This might be a small effort, but it's a step in the right direction, and I think that's what this country needs right now.

Now they're blocking both half of the street and the sidewalk.... Id deal with it but I got somewhere to be. if it isn't one of us getting hurt one of them is going to get hurt traffic flows through this neighborhood so damn fast.

On Wed, Jun 27, 2018, 8:14 AM Shannon Geaney <35012@lapd.online> wrote:
Good morning all,

Please remember to stay in contact with Councilman Mitch O'Farrell's Office about the parking restrictions and funding for a beautification project. In the meantime, we will continue to advise and enforce where we can.

As for efforts to clean yourselves, it has a positive effect. The Church of Scientology has a clean-up effort once a month. Some of the homeless appreciate the social engagement and willingly participate. Please if you decide to undertake this...be extremely careful. There are needles and human waste that are very possibly infectious. The clean-up operations supervised by Bureau of Sanitation have safeguards in both training and supplies to address this hazard.

Hi Jordan,

I agree. And I've been doing it as much as I could. It is a challenge to do it when the tents are around and you have to go around them. They get angry about disturbing them. After all, they consider the tent to be their home.
And it is correct; *the homeless situation is of epidemic proportions across the city.* Look at downtown LA - it is covered with tents.

I am all for it. We can create a schedule who can do it and when?! The trash truck usually comes on Monday mornings around 9 a.m. I tried in the past to gather everything on the street before they drive around here, so they can pick up the trash from the street, that is appropriate for them to pick up. The bigger pieces I collect and put in the garbage bag myself.

I do not feel comfortable, as a girl, to gather stuff from around many young guys sitting on the street corner...
And that is not something that will totally resolve the problem. Summer is here and they have to use the bathroom, which will make this street smelling really bad, bring flies.

But we surely can pick up the trash, because they will not or maybe will if they see us doing it?! Who knows...

Amalisha

Hello Everyone,

I live at 1762 N Tamarind. I saw the LAPD drive by this morning around 8:45am. There was already a group of four or five people sitting on the corner in the middle of the sidewalk and in the grass. I appreciate the effort that the LAPD has made. I understand that the homeless situation is of epidemic proportions across the city. There is only so much people can do. I want to talk about what WE CAN DO. We, as a community, can decide to clean up our own streets. If we attempt to wait it out, like we have for what is coming up on a year, then the situation will just keep repeating itself. Which, is exactly what has been happening already. This isn't going to be pleasant, and it's not going to be easy. We can get push-brooms, trash bags, and gloves to clean up. There is a dumpster 100 feet from where the majority of the trash is left. If the drug addicts and people who litter aren't going to clean up after themselves, that means someone else has to, literally, clean up the trash on the street and throw out the garbage. It's a start. Let's at least talk about it. We can do that.

-Jordan Stone

On Tue, Jun 26, 2018 at 7:48 PM Jesse C <[redacted]> wrote:
If the city didn't want something bad to happen they would do something, like enforce the laws that are on the books rather than focusing on a couple that they cant enforce.

Your city does not care about you, it's perfectly willing to feed you to the wolves. Sergeant made it perfectly clear but only pre-packaged felonies will really be enforced, anything else may get no response whatsoever.

Just remember to vote out all incumbents.

On Tue, Jun 26, 2018, 7:44 PM Laura Ruiz <x[redacted]> wrote:

Hi Sgt Geaney,

I remember when we all met you said something along the lines of that the people in the tents couldn't be asked to move because their tents were technically only taking up half of the sidewalk (though no one ever walks on that side anyway because of all the littering and waste). Now, there are people on the other side that do take up that whole walkway of the sidewalk, yet they're there every day. Today they also had a dog that was barking and running towards oncoming pedestrians. Our community is right next to a children's school, church, and unless I'm mistaken, senior citizens living in the building behind to the right of the tents.

The best way to stop a dangerous event from happening is by prevention rather than avoidance. We have so far not seen significant precautions as one issue just leads to another. Unfortunately, LAPD doesn't see the occurrences that we see here everyday. If we wait it out, we're just waiting for something bad to happen.

Just witnessed several people on the corner screaming at each other (Sat 23rd approx 3:45pm) , threatening to "cut" each other and blocking the cul de sac. After managing to pass and park my car, one of the younger gentlemen raced at an older couple with seemingly violent intentions, waving his arms and screaming. As others quickly gathered to stop him I called 911.

After minutes of being redirected I was asked to give descriptions of all the people involved and what I had witnessed. Whether I had seen a weapon or any actual violence. By the time I went back out to the corner to get a better look at them (for better descriptions on appearance) the main people involved were no longer there. Still 10+ people on the corner, mind you, whether spread out on the grass or watching from their vans.

I was told since I had not seen a weapon or any direct violence there was nothing to be done, and to call back if I saw anything else.

This corner is a ticking time bomb. Not to mention the fact that by the time anything gets reported or called in, and by the time officers arrive, it will likely be too late. Someone could have very easily been hurt today - and for all I know potentially did and took off.

Please be safe out there, everyone. I've been relaxing into our current situation / just accepting it, which is wrong. If you see anything, call immediately - it will take several minutes to get through to someone. Be conscious of descriptions of the people involved.

Also what information do we have on the supposed July 2018 relocation?

Matthew Miller

Good morning all,

Please remember to stay in contact with Councilman Mitch O'Farrell's Office about the parking restrictions and funding for a beautification project. In the meantime, we will continue to advise and enforce where we can.

As for efforts to clean yourselves, it has a positive effect. The Church of Scientology has a clean-up effort once a month. Some of the homeless appreciate the social engagement and willingly participate. Please if you decide to undertake this...be extremely careful. There are needles and human waste that are very possibly infectious. The clean-up operations supervised by Bureau of Sanitation have safeguards in both training and supplies to address this hazard.

Sgt Geaney

Hi Jordan,

I agree. And I've been doing it as much as I could. It is a challenge to do it when the tents are around and you have to go around them. They get angry about disturbing them. After all, they consider the tent to be their home.
And it is correct; *the homeless situation is of epidemic proportions across the city.* Look at downtown LA - it is covered with tents.

I am all for it. We can create a schedule who can do it and when?! The trash truck usually comes on Monday mornings around 9 a.m. I tried in the past to gather everything on the street before they drive around here, so they can pick up the trash from the street, that is appropriate for them to pick up. The bigger pieces I collect and put in the garbage bag myself.

I do not feel comfortable, as a girl, to gather stuff from around many young guys sitting on the street corner...
And that is not something that will totally resolve the problem. Summer is here and they have to use the bathroom, which will make this street smelling really bad, bring flies.

But we surely can pick up the trash, because they will not or maybe will if they see us doing it?! Who knows...

Hello Everyone,

I live at 1762 N Tamarind. I saw the LAPD drive by this morning around 8:45am. There was already a group of four or five people sitting on the corner in the middle of the sidewalk and in the grass. I appreciate the effort that the LAPD has made. I understand that the homeless situation is of epidemic proportions across the city. There is only so much people can do. I want to talk about what WE CAN DO. We, as a community, can decide to clean up our own streets. If we attempt to wait it out, like we have for what is coming up on a year, then the situation will just keep repeating itself. Which, is exactly what has been happening already. This isn't going to be pleasant, and it's not going to be easy. We can get push-brooms, trash bags, and gloves to clean up. There is a dumpster 100 feet from where the majority of the trash is left. If the drug addicts and people who litter aren't going to clean up after themselves, that means someone else has to, literally, clean up the trash on the street and throw out the garbage. It's a start. Let's at least talk about it. We can do that.

If the city didn't want something bad to happen they would do something, like enforce the laws that are on the books rather than focusing on a couple that they cant enforce.

Your city does not care about you, it's perfectly willing to feed you to the wolves. Sergeant made it perfectly clear but only pre-packaged felonies will really be enforced, anything else may get no response whatsoever.

Just remember to vote out all incumbents.

Hi Sgt Geaney,

I remember when we all met you said something along the lines of that the people in the tents couldn't be asked to move because their tents were technically only taking up half of the sidewalk (though no one ever walks on that side anyway because of all the littering and waste). Now, there are people on the other side that do take up that whole walkway of the sidewalk, yet they're there every day. Today they also had a dog that was barking and running towards oncoming pedestrians. Our community is right next to a children's school, church, and unless I'm mistaken, senior citizens living in the building behind to the right of the tents.

The best way to stop a dangerous event from happening is by prevention rather than avoidance. We have so far not seen significant precautions as one issue just leads to another. Unfortunately, LAPD doesn't see the occurrences that we see here everyday. If we wait it out, we're just waiting for something bad to happen.

>>> Good morning,

The encampment at Carlos and Tamarind is visited by Hollywood's CORE Unit at least twice EVERY working day. But as you all have been told, we offer resources, provide trash bags and arrange for them to be picked up, write citations and make arrests when possible.

The CORE Unit assisted in moving one couple who was finally placed in permanent shelter into their apartment. Two other younger inhabitants have been re-United with family out of the state and are no longer on Carlos. Yet, as we have seen their space has been backfilled by others experiencing homelessness.

Please remember to contact your Council District,
http://cd13.lacity.org/
and ask him to address your issues.

We will continue to use the means that are lawfully available to us to address the problem.

Respectfully,
Sgt Geaney
